

MyBelltown.com - A Community Managed News Blog.

Creating An Account

1. First you need an account before you can create an article on the site.
 - a. Open a web browser and go to <http://www.mybelltown.com/wp>

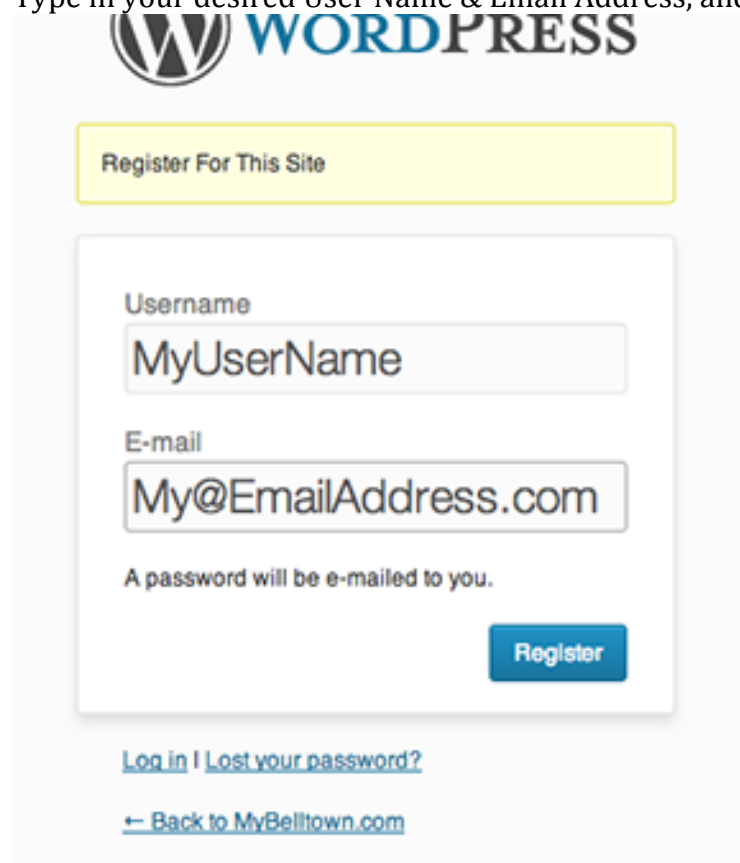

- b. Scroll to the bottom and click on "Register"

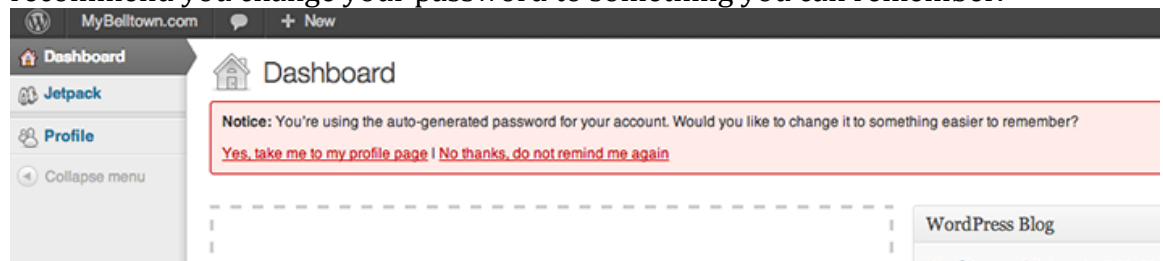

MyBelltown.com - A Community Managed News Blog.

- c. Type in your desired User Name & Email Address, and then click Register.

The image shows the WordPress registration interface for MyBelltown.com. At the top is the WordPress logo. Below it is a yellow button labeled "Register For This Site". The registration form contains two input fields: "Username" with the value "MyUserName" and "E-mail" with the value "My@emailaddress.com". Below the fields is the text "A password will be e-mailed to you." and a blue "Register" button. At the bottom of the form are links for "Log in | Lost your password?" and "← Back to MyBelltown.com".

- d. You will then see Registration complete. Please check your e-mail. Check your email from WordPress with subject of "[MyBelltown.com] Your username and password"
- e. Using those credentials go back to your web browser and enter in your username and given password. You will see the screen below, I recommend you change your password to something you can remember.
